

To: Eastern Interconnection Stakeholders

Notice of Webinar: March 25, 2014 from 9:00am to 10:30am Eastern time

The Eastern Interconnection Planning Collaborative (EIPC) has collected stakeholder input on possible scenario studies to be completed in 2014. These studies would be based on the power flow models representing the planned transmission systems for 2018 and 2023 (Roll-up Cases) that were developed in late 2013. The EIPC will hold a webinar to discuss the scenario suggestions and seek input from stakeholders to assist the EIPC in better understanding the scenarios and the expected usefulness of the studies. The discussion will also help to prioritize the scenario suggestions. The webinar will be held on March 25, 2014 from 9:00am to 10:30am Eastern time. If you plan to participate, please register at:

<https://www.surveymonkey.com/s/eipc-20140325>

The webinar agenda and documentation on the scenario suggestions will be posted on the EIPC website and distributed in advance of the webinar. Click [here](#) to access a copy of the schedule of stakeholder activities.

Look for further updates about the EIPC activities on the EIPC website at EIPOnline.com

Thank you for participating in the EIPC.
